

Rugged Workflows

Dell Latitude Rugged

Start Discovering

Engineered by you.

Your work takes you to some of the world's most extreme conditions, and you pushed us to create the world's most rugged PCs. We accompanied you to the harshest environments to become stronger than ever before and have proved our worth by developing models with the rugged durability to stand up to any challenge. Because when everything on our machines is created with purpose, you can better achieve your own.

Military

Users within the military community rely on technology to transfer critical data quickly and securely – often in extreme, austere and challenging environments. Equipment failure resulting in possible life-threatening downtime is not an option. Defense agencies worldwide put their trust in Dell's Latitude Rugged Laptops and Tablets with extreme rugged features required by MIL-STD-810G/H testing standards, ingress protection of IP65 and multiple mobility options to keep you connected and in the fight.

FRONT LINE OPERATIONS

In the field and on the front line, you need reliable technology that works as hard as you. Rugged solutions enable you to optimize data analysis, power through intensive data collection and easily handle long, on-site tasks in remote locations regardless of the environment.

IT/SECURITY PROFESSIONALS

You need powerful, reliable fleets of systems capable of powering through intensive data collection and analysis with solid mobile rugged solutions. With Dell's core tenants of reliability, security and manageability our Rugged solutions ensure you peace of mind that our durable solutions will keep your fleets connected and on task to complete critical operations.

Challenges:

1 Standard computing platforms will not last in extreme austere environments. System reliability for communications and readily available data are key elements to the war fighters success. Additionally, machines are used in long shifts, devices require long battery life and the ability to withstand high vibrations/shocks and drops.

2 Environments and locations of fleet resources can change quickly. Easy to manage solutions with flexible mobility configurations are needed throughout the organization.

Overcome these challenges with Dell's solutions below:

Federal Civilian Agency

Federal Civilian Agency

Whether it is supporting citizens after a natural disaster, chasing dangerous fugitives or putting satellites into space, Dell offers mobility solutions powerful enough for data crunching and analysis and flexible enough to take the rigors of the field with you when you have to go. Dell's Rugged Latitude 5420/5424 notebooks are purpose built to be the most versatile IT asset you have. With Rugged features to stay operational in the field, like dual hot swappable batteries for continuous use and protection from elements such as dust and moisture, you'll be at ease knowing you can conduct your job wherever your it takes you. Staying connected anywhere is easy with integrated mobile broadband and GPS.

CIVILIAN AGENCY PROFESSIONALS

When your role as a Civilian Agency Professional requires you to get in the field you rely on your technology to keep up with you. Rugged reliability and connectivity will keep you engaged and efficient when providing critical services to the community you serve.

IT ADMINISTRATORS

Your users may go TDY to help or constantly be in elements and environments that would destroy standard computing platforms. Beyond security and manageability of this fleet you don't want to also have to worry about reliability.

Challenges:

1 Need devices that are TAA compliant with integrated smartcard readers, can be equipped with mobile broadband, and are easily managed.

2 Need devices that can be deployed and used in settings that require protection from potentially challenging working conditions.

Overcome these challenges with Dell's solutions below:

Law Enforcement

STATE/LOCAL POLICE OFFICERS

As a Police Officer or Chief, you need a mobile, reliable GPS solution that can be easily mounted in vehicles and accessed on the road with the tightest security settings. You have come to rely on your mobile computing platform as you have your vehicle or even your firearm. Reliability, expedience and accuracy are key to keeping you and our communities safe.

LAW ENFORCEMENT IT ADMINISTRATORS

You may not be on patrol, but you are the first one to get called if the mobile data system is not functioning properly. You and your communities sleep better at night when data is accessible and hardware performs as it should, because of extensive testing and certifications.

Challenges:

1 Require mobile data system capable of withstanding extreme temperatures and vibration, daylight readable screens capable of wireless communications, and vehicle location options for dispatch and data request/capture, as well as lockable secure mobile data vehicle docking.

2 Require manageability tools for simplification and ease of fleet management, as well as access to 24x7 365 day technical support.

Fire/EMS Services

Fire & EMS Services

When you get called to service, lives and property are on the line. So you rely on technology to keep up with you wherever you are called. From dispatch to being on scene or entering EPCR data from your patient, you need systems that can withstand the rugged conditions you are exposed to, while maintaining critical wireless communications throughout the call. Dell Rugged will be there for you, reliably, to provide these vital services.

[Find Out More >](#)

Fire & EMS Services

FIRE FIGHTER

Whether the high heat from the burning structure or the excessive vibration while mounted on the engines doghouse, you and your computers are exposed to extreme conditions.

EMERGENCY MEDICAL TECHNICIANS

When seconds matter, you need a reliable wireless and GPS enabled solution to get you on scene to save lives. Gathering EPCR data should be easy with flexible solutions for pen based, touch or keyboard entry. Long battery life for extended shifts and drop and ingress protection are key.

IT ADMINISTRATORS

Diverse assets deployed to various parts of the community require you to be able to easily manage those IT components, while trusting that reliable, secure devices can withstand extreme environments to continually perform.

Challenges:

1 Excessive vibration in fire apparatus and exposure to extreme conditions challenge reliability in computing platforms.

2 Reliable communications and GPS solutions needed for critical time sensitive incident response.

3 EMT first responders are constantly on the go, frequently utilizing tablets to input patient diagnostics, obtain signatures and track data.

Overcome these challenges with Dell's solutions below:

Transportation & Logistics

Transportation & Logistics

Whether your business is to keep people or merchandise moving, you need to do it with efficiency and reliability to avoid customer dissatisfaction and potentially decreased profits. Maintaining the equipment you use daily is vitally important to ensure those goods and people are moved to and from safely. Your “office” environment could pose hazards and conditions requiring the most reliable, secure and manageable rugged product on the market, to keep your competitive edge by delivering those people and goods on time as expected.

[Find Out More >](#)

Transportation & Logistics

FORKLIFT/ORDER PICKING/LOAD MASTER WAREHOUSE/SHIPPING/FREIGHT/CARGO

Whether your shipping dock is on a coastal waterway or the back of a warehouse, the equipment used to move goods from warehouse shelf to the shipping vessel can be tough. The environment can present challenges where standard computers will quickly fail.

DRIVER/ENGINEER

Getting product and people where they need to be when expected is critical to ensure customers satisfaction and success of the business. That large responsibility falls to you.

MECHANIC

Whether your delivery vehicle has wings, runs or rails or rubber, you need to keep the fleet moving to avoid costly delays due to mechanical failure.

Challenges:

1 Dockable solutions needed for forklift/order picking with local wireless connectivity and bar code scanning capability.

2 Vehicle dockable solutions providing daylight readable, glove touch screens with mobile broadband wireless connectivity and GPS capability.

3 Systems that can withstand high temperatures with legacy I/O ports for serial connectivity and glove capable touch screens.

Field Services

Field Services

If your day might consist of repairing an air conditioning unit on a rooftop in the sweltering heat, or pulling a tractor trailer out of a ditch on an icy road, customer satisfaction is your main goal. Efficiency in access to dispatch information, along with job orders and tasks, will improve your overall customers satisfaction along with improving company image and profits. You, along with your “office”, are on the move all day, potentially into the night and certainly at times into very harsh environments. Dell Rugged has the features and reliability you can rely on to get you there, help you stay on task, and get the job done.

[Find Out More >](#)

Field Services

FIELD SERVICE DELIVERY

Customers anticipate that the new purchase or service you promised is provided. Ensuring you have the right tools to get you there and deliver is your primary objective.

FIELD SERVICE TECHNICIAN

When things need fixing, customers need you. While on site you will need access to data to ensure the troubleshooting and the repair are done right.

UTILITY/EMERGENCY RESPONSE

The harshness of environments play right into you being called out. Knowing where key assets are located and being able to refer to data to ensure fast resolution to the problem in those environments is key.

Challenges:

- 1** Dockable solutions needed for product, service and repair delivery. Need to be easily removable and securable in vehicle.
- 2** Solutions that provide daylight readable, glove touch screens with mobile broadband wireless connectivity and GPS capability.
- 3** Systems that can withstand extreme high/low temperatures with legacy I/O ports for serial connectivity and glove capable touch screens.
