

Rugged devices

Smooth connectivity

Rugged range meets the UK's most loved network

Work is no longer tied to a desk. But often our devices aren't equipped to handle the elements of unpredictable working environments.

From retail to construction, manufacturing to frontline response, your team needs hardwearing devices that won't let them down.

Samsung Rugged devices provide functionality, and durability while our network offers strong, reliable connectivity when your employees are on the move and in the field.

Deskless workers make up

70-80%

of the world's labour force¹

Good network connectivity and battery health are ranked as the most important features for frontline workers²

A new era of Samsung Rugged devices

Samsung Galaxy Active and xCover devices are tough on the outside, with smarts on the inside.

A range of built-in productivity tools and defence-grade security help employees make light work of even the hardest jobs, helping boost employee satisfaction and efficiency.

Easy deployment

Use devices straight out of the box and integrate with all your mobile device management platforms

Tough and durable

Feel assured knowing devices can shrug off drops, spills and dust so there's no need to invest in bolt-on protective accessories

Trusted and secure

Connect devices and transfer data knowing the robust built-in defence and regular security patches will protect you from cyberattacks

Tools, apps and features

Improve the customer and employee experience with smart tech like augmented reality collaboration tools or barcode scanning to find product info on the shop floor

Always-on communication

Keep colleagues connected with lightning-fast 5G, reliable WiFi and push-to-talk communication

50%

of field workers will use mobile augmented reality (AR) collaboration and knowledge sharing tools by 2025³

Device-as-a-Service

Device-as-a-Service makes it easy to get the latest Rugged hardware from Samsung without the usual admin or upfront cost.

It's an all-in-one package that comes as part of your contract with us.

What are the benefits?

From setup and delivery of all your devices to security, repairs and tech support.

Peace of mind

Repair and replace devices easily, letting your IT and support teams focus on other work

Better cashflow

Free up budget for more opportunities by spreading your device payments over time

More productivity

Give employees access to the latest tech that's ready to go right out of the box

Reliable support

Keep downtime to a minimum with repairs or replacements in as little as 24 hours

Organisations with the highest degree of digital connectivity and empowerment are likely to see more than 20% growth year on year⁴
